

Mrudula M Mane

Conservation Architect

PhD Candidate, Faculty of Architecture, CEPT University

Research Area Keywords:

Built Heritage, Ruins, Conservation,
Digital Documentation, Coastal Forts

Mrudula is a conservation architect from Mumbai, India, and holds a Master's degree in the Conservation of Historic Buildings from the University of York, UK. She is currently pursuing a PhD in the application of digital documentation techniques to the conservation of built heritage at the Faculty of Architecture, CEPT University, Ahmedabad. She is proficient in three techniques of digital documentation: 3D LiDAR Scanning, Photogrammetry, and GIS Mapping. Her focus area is the coastal forts in the Konkan region of western India, which are in a state of ruin and vulnerable to human activities and climatic impacts.
