Jayashree Bardhan has a Master's Degree in World Heritage Studies from BTU Cottbus-Senftenberg, Germany and a Bachelor's Degree in Architecture from CEPT University, India. At Center for Heritage Conservation, CEPT Research and Development Foundation, she leads heritage impact assessments, heritage mapping and capacity building programs. She provides expertise on World Heritage, indigenous heritage and heritage frameworks in advisory and research projects. She is the co-nominator of the site 'Bhuj Historic Water Systems, India' of World Monuments Watch 2025. As Visiting Faculty at CEPT University, Jayashree has taught the 'Urban Regeneration' and 'Architectural Conservation' studios, both emphasising on people-centred approaches, in the Master's Program 'Conservation and Regeneration'. She has also supervised 'Directed Research Projects' on indigenous cultural landscapes in the same Program and in the Master's Program 'Architectural History and Research'.
